

HUDSONSEED STRATEGIC DISTRICT PARTNERSHIP

The Science of Calm

Transforming nervous systems and changing the trajectories of children's lives for more positive outcomes.

EVIDENCE-BASED MOVEMENT

Science Over Recreation

HudsonSeed is built on 600+ hours of advanced somatic training and a history of impacting over 100,000 students globally.

By leveraging biological movement, the program teaches students to regulate their nervous systems, transforming classroom environments into high-focus sanctuaries where instruction can thrive.

The Foundation of Regulation

Chaos: Rising anxiety and dysregulation prevent classroom focus and consume critical instruction time.

Burnout: Teachers manage emotional regulation daily without the specific somatic tools to protect their own well-being.

Generic AI: Districts are tired of automated pitches. HudsonSeed is a human-first, science-backed analog intervention.

TECHNICAL LOGIC

Movement as Medicine

We teach students the physical mechanics of emotional regulation through somatic awareness and mindful breathwork.

Science-Based Focus Efficiency

CONTINUOUS RESOURCE LIBRARY

The HudsonSeed Vault

95 Hours of rich instructional video training. 5TB of content supporting staff in every pose, grade, and module, 24/7.

GLOBAL REACH, ANTIFRAGILE SCALE

Leveraging robust infrastructure to scale personalized, human-first care to the NYC and Jersey City pipeline.

100k+ Students Impacted

190+ Countries Globally

PEER-REVIEWED SCIENTIFIC OUTCOMES

All data points drawn from clinical trials and peer-reviewed systematic reviews of mindfulness-based school interventions.

Metric Category	Evidence-Based Finding	Clinical Reference
Behavioral Incidents	Significant reduction in suspensions and absences	Journal of Applied School Psychology
Executive Function	Increased resilience, attention, and prosocial behavior	PMID: 24483 (NIH Review)
Academic Success	Improved test performance for students with LD	Complementary Health Review
Staff Wellness	Effective reduction in administrator stress and burnout	Yoga in Schools Research Index

PROFESSIONAL DEVELOPMENT

30-Hour Certification

We certify school staff to lead regulation breaks internally, ensuring wellness is woven into the district culture, not an 'outside add-on.'

Empowering Your Educators

Equipping teachers with somatic tools to manage their own regulation while leading their students through daily transitions.

NYC & JC EXPANSION ROADMAP

NYC: 1,800 School Pipeline

Jersey City: 39 Schools Beta

Next District: Currently Assessing Priority Outreach

Anticipated outcomes based on pilot data from NJ/NY enrichment blocks.
