Effortless

100% asynchronous. No prep, no scheduling, no specialist. A teacher presses play whenever the moment is right.

Worth it

Big impact for **less than the cost of one PD day**. An easy yes.

BUILT TO SAVE TEACHER SANITY

Press play. Catch your breath.

Chaotic transition after recess? A teacher doesn't prep a lesson or schedule a session. They pull up Hanuman on the whiteboard, press play, and let the coach guide the room for two minutes while they catch their breath.
